Copies of this pattern may be used for charity quilt projects. If you would like a personal copy please visit my website (listed above).

Here, Kitty, Kitty! quilt top measures 36-1/2" square before borders. More kitties could be added to make a larger quilt.

This is a scrap quilt. See cutting instructions for minimum amount of fabric needed for one kitty. Background requires about 1 yd of 40" width material.

For each of the 36 kitties cut (note I suggest that you cut and sew one kitty to check these directions before cutting fabric for all kitties):

❖ 4 - 2" squares of body material

❖ 1 - 3 1/2" x 5" rectangle of body material

From background material cut:

❖ 36 - 2" x 5" rectangles (1 for each kitty)

❖ 36 - 2" squares (1 for each kitty)

❖ 72 - 1-1/4" x 6-1/2" rectangles (2 for each kitty)

<p>To make the ears for one kitty, place one 2" square of kitty body fabric at each end of a 2" x 5" background rectangle. Sew on the diagonal across the middle of the squares as shown. Trim the excess fabric ¼" from the sewing line and press towards body fabric.</p>		
<p>The ears unit should look like this. Repeat for all kitties.</p>		
<p>To make the feet for on kitty, sew one 2" square of kitty body fabric to each side of a 2" square of background fabric. The feet unit should look like this. Repeat for all kitties.</p>		
<p>Sew ears unit, feet unit and 3-1/2" x 5" rectangle of body fabric together in order shown here to form kitty unit.</p> <p>Sew 1-1/4" x 6-1/2" rectangles to the sides of each kitty.</p>		
<p>Arrange kitty units and remaining background pieces as shown in kitty quilt picture above and sew together. Add borders as desired.</p>
