Sewing Small Snowflake Sections together: These instructions are for one Small Snowflake. Repeat for all Small Snowflakes in your project. All seams are a scant 1/4".

- Sew the spline side of a 'snowflake section with spline' to a section without. The top of the snowflake sections, indicated by an arrow in Diagram 1 should meet in a straight line. The white spline will extend below the point of the sections as shown in Diagram 1. Press toward the spline.
- Add another spline section as shown in Diagram 2. Press seams toward the white spline. This is half of a small snowflake. Trim any excess fabric along the center of the snowflake.
- Repeat for the second half of the snowflake.
- From the snowflake fabric cut one 3/4" x 7" strip.
- Sew the strip to one snowflake half. Press toward the narrow strip. Trim excess strip at the bottom of the snowflake section.
- Sew the other half of the snowflake to the center segment and trim. Press toward the narrow strip.
